# IV EUGEO CONGRESS

ROME, 5-7 SEPTEMBER 2013

**EUGEO** is the Association of Geographical Societies in Europe.

The aim of **EUGEO** is to represent its members, to coordinate joint activities to advance research and education on the Geography of Europe and to promote the discipline of Geography in Europe ([www.eugeo.org](http://www.eugeo.org)).

## Europe, what's next? Changing geographies and geographies of change

What is the destiny of continents in an era of globalization? And what is the future for Europe? The answer to these questions is intertwined and depends upon what the destiny of geography is to be. Geography has been called upon to question the validity of the concepts and logics inherited from modernity. In times of crisis, geographical thought has to respond to realities which are shifting not only in form but also in nature. For the first time in the history of humanity we fully realize that we must conceptualize the world as a sphere, a globe which functions as a singular unit, a unique, complex system.

This brings about a need to re-assess, with reference to the actual state of affairs in the European continent, the entire project of modernity as well as to rethink the elements through which we describe it: states, boundaries, urban systems, landscapes, regions. The challenge - and the hope - is to envision a new representation which is already forming. In doing so, we must look back and reflect upon the most archaic concept we can imagine: the Nomos of the Earth, the nature of relations between land and sea.

## EUGEO 2013

The fourth EUGEO Congress will take place in Rome, Italy, 5-7 September 2013, at the University of Rome La Sapienza and at the Società Geografica Italiana (Villa Celimontana).

The **programme** will include key-note speeches, paper sessions, poster sessions, thematic panels, scientific and social events.

Researchers and experts from all over the world are invited to submit proposals to: [info@eugeo2013.com](mailto:info@eugeo2013.com)

The aim is to facilitate the exchange of new ideas and to offer opportunities for networking within an informal atmosphere.

The **Congress venues** are centrally located and well connected by public transport. Attendees will have the chance to enjoy the magnificence of Rome in September and will have plenty of opportunities to participate in cultural events and visits.

PhD students and early career researchers are encouraged to actively participate and will be offered a reduced fee.

To keep updated, subscribe to the EUGEO 2013 newsletter at [www.eugeo2013.com](http://www.eugeo2013.com) or via the QR code.
